

Yellow Peel VitAge®

A **retinol-based chemical peel** that enhances and speeds up the results in the **treatment of aging, acne-prone skin, hyperpigmentation and stretch marks.**

KEY INGREDIENTS: RETINOL, RETINYL PROPIONATE
ASCORBYL GLUCOSIDE (Vitamin C derivate), NIACINAMIDE

Retinol is a precursor of retinoic acid. It normalizes keratinization.

Additionally, it nourishes the skin, prevents the appearance of wrinkles, decreases the depth of existing wrinkles and improves skin elasticity.

Retinol also reduces spots caused by excessive UV exposure and regulates the proliferation and mobility of melanocytes. It may be combined with other anti-aging, repairing or whitening treatments.

CONTRAINDICATIONS

Visible skin damage in the treatment area
Active skin infections (bacterial, fungal, viral)
Active skin inflammation
(such as eczema, urticaria, seborrheic dermatitis, psoriasis)
On-going therapy with isotretinoin
(must wait at least 6 months after the end of treatment)
Pregnancy and lactation

How to care for your skin after a peel

1. Wash your face with cool water. Warm or hot water might not feel as good as cool or cold water, which can help soothe post-peel sensations.
2. Moisturize and hydrate. ...
3. Apply sunscreen with SPF30 or more. ...
4. Avoid strenuous workouts, dry saunas and steam rooms. ...
5. Don't over-exfoliate.
